ABOUT

Twenty-plus years of craft across global brand campaigns, cinematic product launches, social-first storytelling, and culture-defining work. Creative direction on the Apple account at TBWA\Media Arts Lab. Spirits and fast food at Havas. Turned the State Farm tagline into a jingle that put the brand in the ear of millions. I think in brand platforms, communicate in stories, and build things that live in culture, not just in media plans, fluent across the AI tools that sharpen the work without letting them do the thinking for me.

Currently freelance, taking on select projects, campaigns, and creative partnerships, with the right full-time role still very much on the table.
